SILVER PARTNER

Total, being the only international oil company active in all branches of Qatar's oil and gas sector, has had an uninterrupted presence of close to 80 years in the country. Today their activities include exploration & production, refining & petrochemicals, and the marketing of lubricants.

In addition to operating the Al Khalij offshore field located 120 kilometres north-east of Doha, Total owns significant interests in the most prominent energy joint-ventures in Qatar, including Qatargas 1 & 2, Dolphin Energy which provides UAE and Oman with natural gas from Qatar; Ras Laffan Refinery, Qapco and Qatofin which was a joint venture to build the largest ethane cracker in the world.

Total bases its success to its experienced staff and highly respected technical expertise. It's involvement in the local community complements its extensive operational portfolio.

The Total Research Centre-Qatar (TRC-Q) Located in Qatar's Science and Technology Park, the Total Research Center-Qatar (TRC-Q) is part of a global network of 22 R&D facilities run by the Group. The centre implemented a US\$25 million investment plan for its first five years of operation, covering joint research, training and technical assistance to local industry, notably QP, Qatargas and Dolphin Energy. Besides research, TRC-Q is active in academic partnerships and supports student development at Qatar University.

Support for Education: Total supports job creation and career development for Qataris by offering improved access to high education through initiatives such as The Total Scholarship Programme started in 2004 which sponsors talented engineers from Qatar Petroleum, and other industries, to complete their master degree studies in science or business in France. Total also sponsored lectures by Total experts to students in various universities, in addition to its internship program and annual Total Summer School in Paris.

Sports as a main tool to remove barriers: As a partner of the Qatar Tennis Federation, Total is the title sponsor of the Qatar Total Open and the Total Qatar National Junior Youth Tournament. Total is also a partner of the Qatar Equestrian Club, sponsoring two of its signature events, the Qatar Prix de l'Arc de Triomphe in Paris and the Emiri Sword Race in Doha.

Commitment to environmental development through its Environmental Monitoring Plan, which is part of the internationally certified environmental management system, ensuring that Total complies with applicable laws and specifications. Total has also partnered with Qatar Environment and Energy Research Institute (QEERI) for its air quality and water management project. Total's five-year research project on CO2 conversion was selected by Qatar National Research Fund, with a grant of 5 million US\$ for the partners involved namely Texas A&M University in Qatar, Qatar University and North Western University.

Foreword

Celebrating outstanding personalities

Total is proud to be a part of The Abdullah Bin Hamad Al-Attiyah International Energy Awards, which celebrates the contributions by men and women of exceptional qualities, who have dedicated their time and energy to serving our industry, with great passion. The recognition of such eminent personalities occurs after a very selective process chaired by His Excellency Abdullah Bin Hamad Al-Attiyah, who himself is the best example of these qualities.

This unique celebration demonstrates the full broadness and diversity of our industry, and its impact on many other sectors. It particularly emphasizes some prerequisites which are key to the world of energy: the need for flexibility, innovation and constant interaction in our forever changing world, where all the players have earned our attention.

In Qatar, Total strives every day to demonstrate these constant changes. We do so while maintaining a level of excellence in our operations and in our collaboration with our institutional and industrial partners. We do so with due respect to Qatar our host country, and its vision for the future of its citizens.

As we come near to celebrating 80 years of continuous activity in Qatar, it is with great pride that we support this year's Abdullah Bin Hamad Al-Attiyah International Energy Awards, as well as the personalities that are honored today and all our distinguished guests. One can appreciate and recognize the importance of these distinctions as examples for today and tomorrow, and this adds all the value to their contributions.

For us in Total Group, Christophe de Margerie who we are honoring tonight has left a mark in our spirits with his immense contribution to the development of the energy industry and his unwavering commitment to promote excellence.

THE ABDULLAH BIN HAMAD AL-ATTIYAH INTERNATIONAL ENERGY AWARDS

– *Lifetime Achievement* –

The Abdullah Bin Hamad Al-Attiyah International Energy Awards has been conceived to celebrate the legacy of H.E. Al-Attiyah by rewarding individuals for their Lifetime Achievement in advancing fields of work and policy that emulate His Excellency's 40 years of distinguished contribution to the global energy industry. The Nominees are recognized for an outstanding record of accomplishment in their sector over the whole of a career; acknowledging individuals who have made an exceptional impact on the energy industry with distinct personal achievements for a consistent and prolonged period of engagement.

Vision of the Awards

• To be the pre-eminent international prize in recognizing Lifetime Achievements in the global energy industry.

Mission of the Awards

- To honor and continue H.E. Al-Attiyah's legacy of stewardship and leadership in the advancement of partnership, sustainability, development, transparency and cooperation in the global energy industry.
- To celebrate individuals for their Lifetime Achievement in advancing fields of work that emulate His Excellency's 40 years of distinguished contribution to the global energy industry.
- To recognize individuals:
 - for an outstanding record of accomplishment in their sector over the whole of a career
 - who have made an exceptional impact on the energy industry with distinct personal achievements for a consistent and prolonged period of engagement
 - who have demonstrated solutions that address the global challenges of energy security, energy access, transparency and economic development.

Lifetime Achievement Awards for the Advancement of:

- Qatar Energy Industry
- OPEC
- Producer-Consumer Dialogue
- Education for Future Energy Leaders
- International Energy Journalism

THE ABDULLAH BIN HAMAD AL-ATTIYAH INTERNATIONAL ENERGY AWARDS

- Selection Committee 2015 -

H.E. Dr. Ibrahim Ibrahim is the Economic advisor at Amiri Diwan and appointed as the Secretary General for the General Secretariat for Development Planning. Dr Ibrahim sits on a number of Boards; Vice Chairman at RasGas and Qatar Gas Companies Limited, Qatar Development Bank; and as member of Qatar Central Bank, Qatar Foundation Advisory Board, Qatar Petroleum and Supreme Council for Economic Affairs and Investment. He served as Associate Professor Business, Economics and Quantitative methods at University of Hawaii, Director of OAPEC and Senior Economist at Oxford Institute for Energy Studies. Dr Ibrahim holds a Ph.D. from New York University and is recipient of awards from Abdulla Bin Hamad Al-Attiyah, MEED, Oil & Gas Magazine, CWC World Energy Summit, Qatar International Business Women Forum and National Human Rights Committee (UN).

Dr. Daniel Yergin is Vice Chairman of IHS and Founder of IHS Cambridge Energy Research Associates. Time Magazine said, "If there is one man whose opinion matters more than any other on global energy markets, it's Daniel Yergin." A Pulitzer Prize winner for his book *The Prize*, Dr. Yergin is the author of the new bestseller *The Quest: Energy, Security, and the Remaking of the Modern World*, which *The Economist* called "masterly" and *the Financial Times* declared "a triumph". Of Dr. Yergin's book *Commanding Heights: the Battle for the World Economy*, the *Wall Street Journal* said, "No one could ask for a better account of the world's political and economic destiny since World War II." In 2014, India's Prime Minister Manmohan Singh presented Dr. Yergin a Lifetime Achievement Award. Dr. Yergin holds a B.A. from Yale University and a Ph.D. from Cambridge University, where he was a Marshall Scholar.

Dr. Aldo Flores-Quiroga is Secretary General of the IEF since January 2012. Before joining the IEF Dr. Flores-Quiroga served in the Mexican government as Assistant Secretary for International Affairs at the Ministry of Energy, and as Assistant Secretary for Bilateral Economic Relations at the Ministry of Foreign Affairs. He was also a professor of political economy at the Claremont Graduate University in California. He studied Economics at the Autonomous University of Nuevo León, in Mexico and earned his Ph.D in Political Science-International Political Economy, at the University of California, Los Angeles.

Dr. Shihab-Eldin is Research Associate of the Oxford Institute for Energy Studies, and member of the Board of Directors of the Schlumberger SBC Energy Institute and member of the International Advisory Board of the King Abdullah Petroleum Studies & Research Center. He was Director at Department of Technical Co-operation at IAEA, Director of Regional Office, and Thrice of Representative at UNESCO. In addition to serving as Director General of Kuwait Institute for Scientific Research, Vice Rector for Academic Affairs and Physics Professor at Kuwait University, he was Research Physicist at Lawrence Berkeley National Laboratory in the USA. Dr. Shihab-Eldin is the Director General of Kuwait Foundation for Advancement of Sciences and former Board Member, and was Acting Secretary General & Director of Research, OPEC. Dr Shiba-Eldin received a B.Sc., M.Sc. and Ph.D. (Nuclear Engineering) from University of California. He has lectured and researched at Kuwait University, the Lawrence Berkeley National Laboratory, the University of California, European Nuclear Research Center, Energy and Environment Policy Center at Harvard University, Belfer Center for Science and International Affairs, MIT, and Vienna Business School.

THE ABDULLAH BIN HAMAD AL-ATTIYAH INTERNATIONAL ENERGY AWARDS

- Selection Committee 2015 -

Nobuo Tanaka is President of The Sasakawa Peace Foundation as of April 1st, 2015. As Executive Director of the International Energy Agency (IEA) from 2007 to 2011, he initiated a collective release of oil stocks in June 2011. He also played a crucial and personal role in the strengthening of ties with major non-Member energy players, including China and India. He began his career in 1973 in the Ministry of Economy, Trade and Industry (METI), and has served in a number of high-ranking positions, including Director-General of the Multilateral Trade System Department. He was deeply engaged in bilateral trade issues with the US as Minister for Industry, Trade and Energy at the Embassy of Japan, Washington DC. He has also served twice as Director for Science, Technology and Industry (DSTI) of the Paris-based international organization, OECD.

Professor Tan Chorh Chuan is President of the National University of Singapore. He concurrently serves as the Chairman of the Board of the National University Health System, Deputy Chairman of Singapore's Agency for Science, Technology and Research, and Director of Monetary Authority of Singapore. He is the Chair of the World Economic Forum's Global University Leaders Forum and a member of the Forum's Global Agenda Council on the Future of Jobs. He is a Fellow of the Royal College of Physicians of London and of Edinburgh, American College of Physicians and Royal Geographical Society, UK.

Walid Khadduri is member of Arab Thought Forum, Oxford Energy Club and co-founder Arab Energy Club. He is an alumnus of Michigan State and Johns Hopkins University. Mr Khadduri was a Researcher at the Royal Scientific Society, Director at the Institute for Palestine Studies and Instructor of Political Science at Kuwait University. His energy career began as Director at OAPEC and then as Managing Director and Chief Editor of MEES. He writes for Al Hayat, previously as editor and now as a columnist. Mr Khadduri is the recipient of several journalism awards from two OPEC Summits, The Association for Energy Economics, Iraqi Economic Network and the Abdullah Bin Hamad Al-Attiyah International Energy Awards

THE ABDULLAH BIN HAMAD AL-ATTIYAH INTERNATIONAL ENERGY AWARDS

- Organising Committee 2015 -

Reda Ibrahim Ali holds a Bachelor's degree in Computer Information System with a minor in Business Administration from University of Wisconsin, USA and Master Degree in International Management from University of Phoenix, USA. During the last 23 years, Mr. Ali has assumed many responsibilities at Qatar Petroleum (QP) in various positions. He joined QP in 1990 as Programmer Analyst at the Information Technology Department; in 1993 Senior Information Analyst at Corporate Planning Department; in 1996 Head of Information Analysis at Corporate Planning Department; in 2006 Assistant Manager of the Business Environment Division at Corporate Planning Department; in 2009 Manager of Energy Policy and International Relations Department. In 2012, Mr. Ali was appointed as Project Direct COP18 (Climate Change Conference) and in 2014 he was appointed as an Advisor at QP Managing Director Office. In addition, Mr. Ali Project Directed the implementation of Enterprise Resource Planning (ERP) for Qatar General Electricity and Water Corporation "KAHRAMAA" (from 2000 to 2003); and Project Directed the 20th World Petroleum Congress (from 2010 to 2011).

Sean Evers is founder and Managing Partner of Gulf Intelligence. Sean has spent his career building ground-breaking media enterprises, starting with the award winning Punchbag Productions across Britain and Ireland, securing top award at the 1992 Edinburgh Festival. In the mid-1990s Sean Evers was appointed Cairo correspondent for The Financial Times. In 1997 he was recruited by Bloomberg to open up the Middle East commencing in the UAE and over the following decade he built-out the U.S. media company's regional network of bureaus from Cairo to Tehran, culminating in 2008 in Dubai being designated as the firm's fourth global hub. He attained a BA in Politics & Economics from the University of Notre Dame in Indiana in 1988, and went on to secure his LLB law degree at the National University of Galway, Ireland.

Annette Bontke speaks 4 languages and is a Director at Gulf Intelligence. Her career spans over 15 years in the Public Affairs and Communications industry across three continents – US, Europe & Asia – where she specialized in directing strategic campaigns for new media and technology companies. Following a successful engagement as the European Communications Director for Yahoo!, Annette unleashed her entrepreneurial prowess and founded a communications consultancy in Italy working with multinationals and intra-governmental organizations. Her consultancy clients included advising the UK Government and the European Union on initiatives to bolster their critical infrastructure protection. Annette has a BA, and earned an MA Hons in Interpreting & Translating from Heriot-Watt University, Edinburgh, Scotland.

THE ABDULLAH BIN HAMAD AL-ATTIYAH INTERNATIONAL ENERGY AWARDS

- Nominee Selection Process -

GUIDELINES FOR THE SELECTION OF SUCCESSFUL AWARD WINNERS

This is open to an individual with an outstanding record of achievement in the advancement of the international energy industry and/or energy policy, but should not currently be an executive employed by an International Oil Company.

Nominees may come from a variety of backgrounds, including academic, political, technical, industry, business or media fields. A strong candidate will have made an exceptional impact on their field with distinct personal achievements over at least three decades. They should be an inspirational individual, and through their contribution and/or leadership, their work will have reached far beyond their own actions and affected people, companies and/or nations.

Key Criteria for Nominees to Make it On to 5-Person Shortlist in Each Category:

1. Impact

- An outstanding record of accomplishment in their sector over the whole of a career.
- Clear, significant and sustained positive impact in their sector over many decades.
- Demonstrated commitment to further the advancement of the energy industry as a whole, for example through advocacy, stakeholder engagement, international partnership, education, media, and standards development.

2. Leadership & Partnership

- Widely recognized as an outstanding and inspirational figure in their field, with much of the impact attributable to this individual having been brought about through other people, as a result of the candidate's qualities.

3. Innovative and Creative Thinking

- Clear individual contribution to the development of innovative solutions, services or initiatives with tangible benefits.

4. Long-Term Vision

- An exceptional impact on the energy industry with distinct personal achievements for a consistent and prolonged period of engagement.
- Clear vision for the long-term future of energy and its place and role in the world, which drives on-going work and new initiatives.

SELECTION PROCESS

Step 1: A group of internationally renowned energy figures, including former winners of the Al-Attiyah Awards, are invited each year to join the volunteer Selection Committee.

Step 2: The 7-person International Selection Committee and the awards producer submit nominees that meet the above criteria for the five award categories -- Qatar; OPEC; Producer-Consumer Dialogue; Education; Journalism -- which delivers a shortlist of five nominees for each category.

Step 3: The 7-person International Selection Committee independently scores every nominee in each of the five Award categories for their performance on each of the above 4 Criteria.

Step 4: The scores of the 7-person Selection Committee are aggregated and the nominees are ranked in accordance with their total points tally.

Step 5. His Excellency Al-Attiyah each year selects one additional outstanding individual to receive an Honorary Lifetime Achievement Award for the Advancement of International Energy Policy & Diplomacy.

GUEST
of
HONOUR

His Excellency
Abdullah Bin Hamad Al-Attiyah

His Excellency Abdullah Bin Hamad Al-Attiyah is the Chairman of Abdullah Bin Hamad Al-Attiyah Foundation for Energy & Sustainable Development. Formerly, he was the President of the Qatar Administrative Control and Transparency Authority as well as the President of COP18/ CMP8 Doha and the Chairman of the Higher Organizing Committee.

H.E. Al-Attiyah, born in Qatar in 1952, has more than 30 years' experience in the energy industry and has held a variety of senior leadership positions within the government of Qatar. In 1992, H.E. Al-Attiyah was appointed Minister of Energy & Industry and Chairman & Managing Director of Qatar Petroleum, before being entrusted with the additional responsibility of Second Deputy Prime Minister in 2003. Four years later he was promoted to Deputy Prime Minister and, in 2011, was appointed Chief of the Emiri Diwan.

H.E. Al-Attiyah has served as Chairman of Qatar's Planning Commission and was elected Chairman of the United Nations Commission on

Sustainable Development in 2006. Currently, he serves as Chairman of the Board of a number of organizations, including Qatar General Electricity and Water Corporation, which among other environmental projects, is exploring the use of solar energy for electricity supplies.

During his illustrious career, H.E. Al-Attiyah, who is also on the board of directors of Gulf Air, has received a number of awards and honors including the Grand Cross in the Order of the Orange Nassau, conferred by Queen Beatrix of the Netherlands, and the Grand Cordon of the Order of Rising Sun, awarded by Emperor Akihito of Japan in recognition of H.E. Al-Attiyah's contribution to promoting bilateral relations between Qatar and Japan.

H.E. Al-Attiyah was also conferred the Necklace of Independence award by His Highness Sheikh Hamad Bin Khalifa Al-Thani, the Emir of Qatar, for his work in championing Qatar's commitment to transparency in business and governance, and for his efforts to promote the national economy.

~ Lifetime Achievement Awards ~

THE WINNERS

Lifetime Achievement Award for the Advancement of the Qatar Energy Industry

Nasser Khalil Al-Jaidah
CEO, QPI

Mr. Nasser Al-Jaidah joined Qatar Petroleum in 1977 after graduating with a degree in Geology and Petroleum Engineering.

Mr. Al-Jaidah currently holds the positions of Chief Executive Officer, Board Member and Chairman of the Executive Committee of Qatar Petroleum International, and Board Member and Chairman of the Audit Committee of Qatar Petroleum. He has held several management positions during his 36 years with Qatar Petroleum.

Mr. Al-Jaidah is also a board member of Qatargas and Vice Chairman of the Qatargas Executive Committee, Vice-Chairman of Qatar Fuel Additives Co., Vice Chairman of Tasweeq and a Board Member of Industry Qatar. He is a

Board Member of the Society of Petroleum Engineers (SPE), the American Association of Petroleum Geology (AAPG), a member of the Advisory Council (Parliament) in the State of Qatar, and a Member of the Provisional Arab Parliament.

Lifetime Achievement Award for the Advancement of the Organization of Petroleum Exporting Countries

Dr. Ramzi Salman

Former Deputy Secretary General, OPEC

Dr. Ramzi Salman began his professional career lecturing at Baghdad University in 1962, before joining the Iraq National Oil Company (INOC) and heading the petroleum engineering sector until the nationalisation of the Iraq Petroleum Company (IPC) in 1972. Thereafter, Dr. Salman worked on establishing SOMO, the state oil marketing organisation, and served as CEO for 20 years. Relocating to Vienna in 1991 as Deputy Secretary General of OPEC serving two consecutive terms. Dr. Salman's last professional relocation was to Doha in 1997, as senior advisor to the Minister of Energy and CEO of Qatar Petroleum (QP).

Dr. Salman was decorated by the Republic of Brazil for his role in developing its bilateral relations with Iraq. He was also decorated by the Republic of Austria for his contribution towards strengthening OPEC–Austria relations and his collaborations during his time working in Vienna.

Dr. Salman has first-class honours BSc in Petroleum Engineering and a PhD in Chemical Engineering, both from the University of Birmingham. He is an honorary fellow in the Centre for Petroleum and Mineral Law and Policy at the University of Dundee.

Dr. Salman was instrumental in the establishment of the Petroleum Engineering Department at Baghdad University, INOC and SOMO during his time in Iraq. He represented Iraq on OPEC's Board of Governors and on several other international forums.

Dr. Ramzi Salman, has been involved in the oil industry for more than half a century. Currently, Dr. Salman resides in Ireland with his wife and extended offspring. Spending his days learning the new from his next generation but yet still admiring the oil scene from afar, not helping himself ponder why we don't learn from history...

He was an active participant and contributor to the IEF (International Energy Forum) since its foundation and was Qatar's representative on its board until 2013; as well as being the secretary of Qatar National Committees for the World Petroleum Congress and World Energy Council until 2011.

Lifetime Achievement Award for the Advancement of Producer-Consumer Dialogue

Dr. Fatih Birol

*Chief Economist & Director, Global Energy Economics,
International Energy Agency*

Dr. Fatih Birol is the Chief Economist of the International Energy Agency in Paris. He is responsible for the IEA's flagship World Energy Outlook publication, which is recognized as the most authoritative source of strategic analysis of global energy markets. He is also the founder and chair of the IEA Energy Business Council, which provides a forum to enhance cooperation between government and industry.

Dr. Birol has been named by Forbes Magazine among the most powerful people in terms of influence on the world's energy scene. He is the Chairman of the World Economic Forum's (Davos) Energy Advisory Board and has served as a member of the UN Secretary-General's 'High-level Group on Sustainable Energy for All'. He is the recipient of numerous awards from government and industry for his contribution to energy and climate economics. Most recently, in 2013, he received the Japanese Emperor's Order of the Rising Sun, the country's highest honour. He has also been

decorated by the governments of Austria (Golden Honour Medal), France (Chevalier dans l'Ordre des Palmes Académiques), Germany (Federal Cross of Merit), Iraq, Italy (Order of Merit of the Republic), the Netherlands, Poland, Turkey, the United States and the Russian Academy of Sciences. He is a past winner of the International Association of Energy Economics' award for outstanding contribution to the profession.

Prior to joining the IEA in 1995, Dr. Birol worked at the Organisation of the Petroleum Exporting Countries (OPEC) in Vienna. A Turkish citizen, Dr. Birol was born in Ankara in 1958. He earned a BSc degree in power engineering from the Technical University of Istanbul. He received his MSc and PhD in energy economics from the Technical University of Vienna. In 2013, Dr. Birol was awarded a Doctorate of Science honoris causa by Imperial College London. He was made an honorary life member of Galatasaray Football Club in 2013.

Lifetime Achievement Award for the Advancement of Education for Future Energy Leaders

Professor Giacomo Luciani

Executive Master in Oil & Gas Leadership, IHEID, Geneva and Master in International Energy, PSIA, SciencesPo, Paris

Giacomo has had a non-conventional teaching career. He has never held a full-time academic job, but always combined teaching with policy research, consulting or jobs in the oil and gas industry. He believes that this is the key to ensuring the relevance of his teaching.

Giacomo studied at the Universities of Rome, Yale and Harvard. He first became acquainted with the problems of the international oil industry while at Harvard, when he took the course jointly offered by the MIT, the Harvard Graduate School and the Harvard Business School

He began his career as an economist at the Bank of Italy (1972-74), the Bank's main analyst for oil price developments. In 1974 he left for the Istituto Affari Internazionali (IAI).

In 1986 Giacomo moved to Los Angeles where he taught in the Economics Department at UCLA as visiting professor from 1986 to 1988. In 1988 he left Los Angeles for Riyadh to consult on Saudi Arabia's economic development. He left Riyadh in 1990, but continued to consult on Saudi economic development issues until 2009.

From 1990 to 2000 he worked for ENI, the Italian Oil Company during which time he also taught at Sciences Po in Paris from 1994 to 1997 and, from 1997, at the Bologna Center of the School of Advanced International Studies of Johns Hopkins University. In Bologna, where he taught until 2010, he began offering his flagship course on the Politics and Economics of International Energy.

In June 2000 he left ENI for the European University Institute in Florence. In 2006 he moved to Geneva, and in 2009 started offering his course on Politics and Economics of International Energy at the Graduate Institute of International and Development Studies in Geneva.

In 2010 he was called to establish a Master in International Energy at the newly established Paris School of International Affairs of Sciences Po. The Master, with an entirely original curriculum and attracting as faculty many of the best European experts in the field, accepts approximately 60 students per year from all over the world.

In 2010 Giacomo, in association with John Gault and Alexander van de Putte, started working on the establishment of a Master of Advanced Studies (Executive Master) in International Oil and Gas Leadership at the Graduate Institute of International and Development Studies in Geneva. Since then, this Master has completed three cycles in Geneva and was once offered in house to a select group of managers of a major Gulf National Oil Company.

In January 2015, Giacomo launched a MOOC (Massive Open Online Course) entitled Politics and Economics of International Energy, which had 4'000 students enrolled.

Lifetime Achievement Award for the Advancement of International Energy Journalism

Dr. Pierre Terzian

President & Editor-in-Chief, Petrostrategies

Dr. Pierre Terzian is President of PETROSTRATEGIES S.A., a Paris-based consulting and publishing firm specialized in energy issues, established in 1985. He is editor in chief of PETROSTRATEGIES (weekly) and EUROPEAN ENERGIES (monthly) newsletters specialized in oil, gas and electricity issues. He holds a doctorate in Petroleum Economics from the Université de Paris I (Panthéon Sorbonne). He also studied Philosophy at the French university of Beirut.

From 1976 to 1985, he was Deputy Director of the Arab Petroleum Research Center, Paris.

From 1982 to 1987, he lectured in Petroleum Economics (subjects: E&P contracts; OPEC) at the Université de Grenoble, France.

From 1983 to 1984, he advised state-owned DEP on oil and exploration matters in Greece.

In 1990 and 1991, he conducted a series of studies on behalf of the French Ministry of Finance on refining and petroleum product distribution in France, in view of the forthcoming liberalization of European markets.

From 1992 to 1997 he acted as an advisor to the Armenian government on energy issues.

In 1997, the French Government's Commissariat Général du Plan commissioned him to study the outlook for natural gas in France's energy strategy for the period 2010-2020.

He was also a special invited foreign expert at the working group on the 2030 Energy Plan of the Kingdom of Belgium

Since 1985, he is adviser of various energy companies.

Dr. Terzian has published three books:

Prices, Revenues and Oil E&P Contracts in Arab Countries and Iran, 1982
OPEC, the Inside Story, 1983

Le gaz naturel, perspectives pour 2010-2020, 1998

Honors

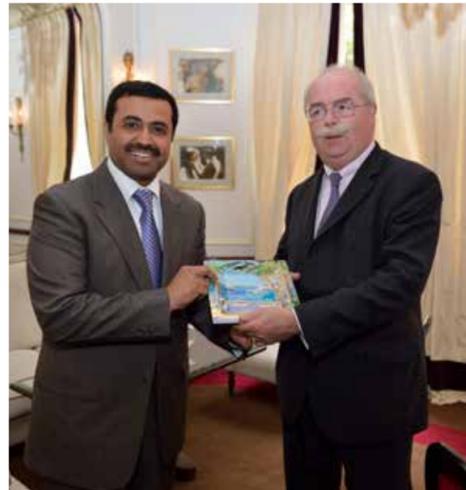

Order of Francisco Miranda, President of the Republic, Venezuela, April 1989

Special Distinction of the President of the Republic, Armenia, September 1996

Order of MkhitarHératsi, President of the Republic, Armenia, May 2004

Order of Gregory the Great, Pope Benedicts XVI, Vatican, February 2010

Born in 1948, Dr. Terzian is a Lebanese and French national. He is married; one son.

Honorary Lifetime Achievement Award for the Advancement of International Energy Policy & Diplomacy

Christophe de Margerie *Former Chairman & CEO, TOTAL S.A.*

“Nothing beats the warmth of face-to-face communication and a handshake. You can never win a contract over the phone.” - Christophe de Margerie

Born on 6th August 1951 in France’s Vendée region, Christophe de Margerie started his career at Total in 1974, immediately after graduating from the École Supérieure de Commerce business school in Paris. He used to say that he chose Total not out of a love for oil, but because it was the company closest to where he lived. He would end up spending 40 years - his entire career - there.

Christophe held a number of positions in Finance and in Exploration & Production at Total, following which he was appointed President, Total Middle East in 1995. During his tenure there, he acquired unsurpassed negotiating skills, winning several contracts for the company. “The Middle

East is where I came into my own,” he would later confide.

Four years after that he was appointed President, Exploration & Production at Total. In 2000, after the creation of TotalFinaElf following Total’s merger with PetroFina and then Elf, Christophe became Senior Executive Vice President, Exploration & Production.

Having served as President of Exploration & Production since January 2002, he was elected Total Director during the Annual Shareholders’ Meeting convened on 12 May 2006.

On 14 February 2007, he became Total’s Chief Executive Officer and was Chairman and CEO starting 21 May 2010 until his tragic death in an airplane accident in Moscow on 20 October 2014.

EPILOGUE
by
Sean Evers
Managing Partner, Gulf Intelligence

Gulf Intelligence is deeply honored and humbled by the trust bestowed on us by His Excellency Abdullah Bin Hamad Al-Attiyah when he accepted our proposition to design and build a commemorative legacy project in his honor after his retirement in 2011 from two-dynamic decades as Qatar's Minister of Energy & Industry, and Chairman & Managing Director of Qatar Petroleum -- and from that fountain of belief emerged the International Energy Awards for Lifetime Achievement in his name.

Tonight, a few short years later, we celebrate the third group of distinguished Award winners who join an elite group of now some 20 Energy Elders from across the world who all embody the great traits of His Excellency Al-Attiyah -- leadership, partnership, creativity and vision to deliver impact.

In the spirit of no man is an island, I would like to take this opportunity to acknowledge another great man who stood alongside HE Al-Attiyah for most of the 20 years I have had the absolute pleasure to know them both, His Excellency Abdulaziz Bin Ahmad Al Malki, who earlier this year was appointed Qatar's Ambassador to Italy -- his wisdom, guidance and good old fashioned work ethic were critical to establishing the Al-Attiyah Awards as the preeminent award for lifetime achievement in the international energy industry.
